

Top Universities in Thailand

Introduction

What are the most popular Universities in Thailand? uniRank tries to answer this question by publishing the **2018 Thai University Ranking** of 124 recognized Thai higher-education institutions meeting the following uniRank selection criteria:

- being chartered, licensed and/or accredited by the appropriate Thai higher education-related organization (</institutions/th/>)
- offering at least four-year undergraduate degrees (bachelor degrees) or postgraduate degrees (master or doctoral degrees)
- delivering courses predominantly in a traditional, face-to-face, non-distance education format

Our aim is to provide a non-academic *League Table* of the top Thai Universities based on valid, unbiased and non-influenceable web metrics provided by independent web intelligence sources rather than data submitted by the Universities themselves.
