Announcement
Faculty of Graduate Studies, Mahidol University
RE: Prevention of Plagiarism in the Thesis/Thematic Paper
B.E. 2556

The Faculty of Graduate Studies, Mahidol University has a strong policy towards the quality and reliability of graduate theses and thematic papers carried out in Mahidol University. The graduate students are required to have research ethics and refrain from any acts of plagiarism. They shall not copy the work of others without proper reference nor claim the work of others as their own. In this regard, the Faculty of Graduate Studies would like to set the objectives and procedures as follows.

1. Objectives

1.1 To encourage the students to produce an original thesis/thematic paper without violating any intellectual property rights

1.2 To instill research ethics into the students

2. Goal

The thesis/thematic paper by graduate students of Mahidol University shall be free of plagiarism i.e. no act of copying or claiming the work of others as their own.

3. Procedures

3.1 The Faculty of Graduate Studies and Mahidol University Library and Knowledge Center shall organize a training course on the use of "Turn-it-in" program to lecturers and students so they will be able to use this program to detect any acts of plagiarism.

3.2 Request for cooperation from lecturers when they give any assignments to emphasize that the students should not copy or claim the work of others as their own. The students will have to check their assignments with the "Turn-it-in" program and submit the "Turn-it-in" originality report along with the assignments.

3.3 Request for cooperation of the major advisors of thesis/thematic paper to ensure the quality and reliability of their student's research. They should encourage the students to conform to research ethics and request the students to submit the "Turn-it-in" originality report along with the draft of their thesis/thematic paper during the research period, the thesis/thematic paper defense examination and the submission of the complete thesis/thematic paper to the Faculty of Graduate Studies.

3.4 When the students submit their request for the thesis/thematic paper defense examination, they have to provide the major advisor with the "Turn-it-in" originality report no less than 15 days before the examination date.

3.5 The major advisors of thesis/thematic paper shall present the result of their consideration of the "Turn-it-in" originality report to the thesis/thematic paper examination committee on the examination date. The result of the "Turn-it-in" originality report consideration should not bear any influences on the result of the defense examination.

3.6 The major advisors of the thesis/thematic paper shall report the result of the "Turn-it-in" originality report consideration in the form GR 50 – "Turnitin Originality Report". The students shall then submit the GR 50 form to the Faculty of Graduate Studies along with their complete thesis/thematic paper.

The "Turn-it-in" originality report that the students and the major advisors of the thesis/thematic paper should consider and report in the form GR 50 must be the same as the one resulted from checking the complete thesis/thematic paper submitted to the Faculty of Graduate Studies.

The students are required to submit the form GR 50 – "Turnitin Originality Report" along with the complete thesis/thematic paper for the students who take the thesis/thematic paper defense examination on or after June 3, 2013.

Announced on February 14, 2013

What is Turnitin?

- Turnitin is an internet-based anti-plagiarism software.
- It is a program used to detect plagiarism in academic works, literature, and research to ensure academic integrity.
- It compares the similarity of words, text, and sentences of the document to check with others that have been previously published, such as theses, and academic articles.
- It checks for duplicate text and compares it with documents from sources supported by the system, including the Internet, student papers, journals, electronic databases, and institutional repositories.
- Mahidol University uses Turnitin as a standard plagiarism checker.

Exploring the Eligible Course Contents from MOOCs for Librarian Professional Development

ABSTRACT

The study explored four popular Massive Open Online Course (MOOC) platforms - Coursera, EdX, Udacity, and FutureLearn - to find courses suitable for librarian professional development. A content analysis approach was used to analyze course descriptions and syllabi.

The findings revealed that there were a total of 861 courses on Coursera, 336 on EdX, 48 on Udacity, and 98 on FutureLearn. Only three courses were directly related to the role of librarians, offered by Coursera and EdX. These courses covered topics like copyright, metadata organization, and library advocacy.

Additionally, there were 14 courses relevant to information technology and educational technology skills, and 28 courses suitable for improving generic skills applicable to librarians.

However, it was noted that Udacity and FutureLearn did not offer any library science courses. Most of their courses focused on general information technology, such as communication skills, etc. This limitation implies that librarians may need to rely on other institutions to acquire core library science knowledge.

The study suggests that there should be new opportunities or approaches for

How to reset your password (1)

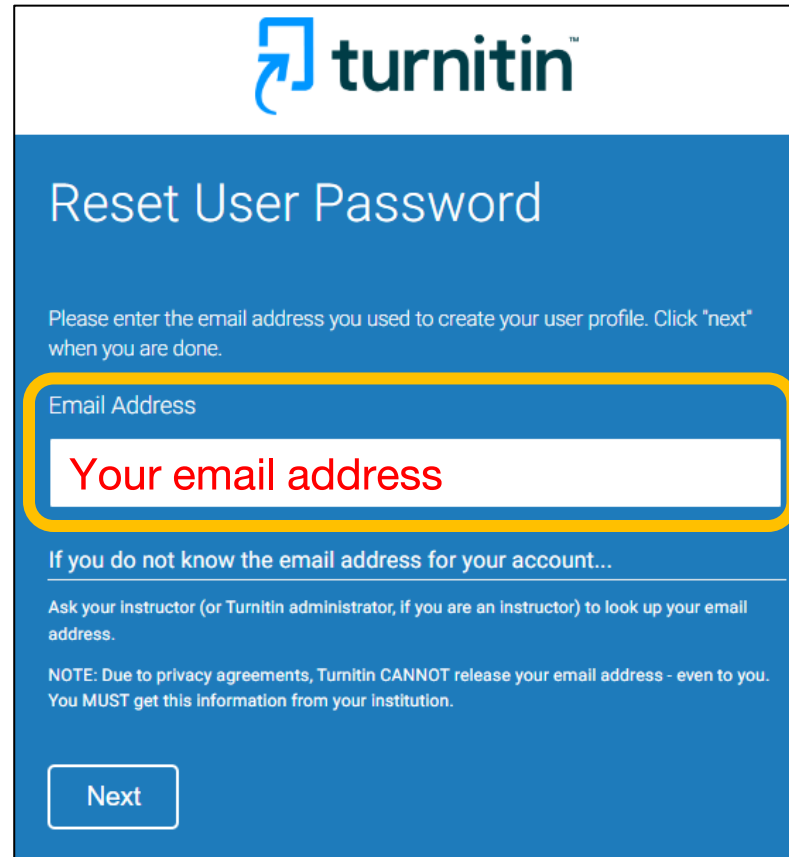

1. Click the link

Forgotten your password?

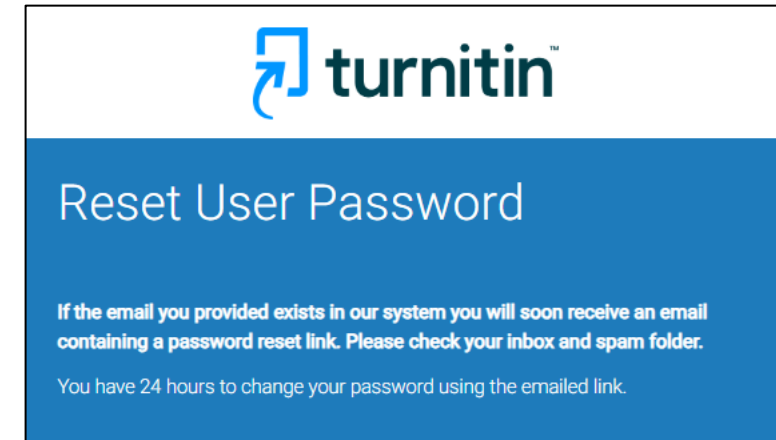

The Turnitin login page features the Turnitin logo at the top. Below it, the heading "Log in to Turnitin" is displayed. There are two input fields: "Email address" and "Password". A "Log in" button is positioned below the password field. Below the login button, there is a horizontal line with the word "Or" in the center. Underneath this line are two buttons: "Sign in with Google" and "Log in with Clever". At the bottom left, there is a link that says "Forgotten your password? Click here." which is highlighted with a yellow box. An arrow points from this box to a larger yellow box at the bottom of the slide containing the text "Forgotten your password? Click here."

2. Enter your email address,
then click **Next**

The Turnitin "Reset User Password" page shows the Turnitin logo at the top. The heading "Reset User Password" is followed by instructions: "Please enter the email address you used to create your user profile. Click 'next' when you are done." Below this is an "Email Address" input field containing the text "Your email address" in red, which is highlighted with a yellow box. Below the input field, there is a section titled "If you do not know the email address for your account..." with instructions to ask an instructor or administrator. A "NOTE" states that Turnitin cannot release email addresses. At the bottom, there is a "Next" button.

3. Turnitin will send a reset
password link to your email.

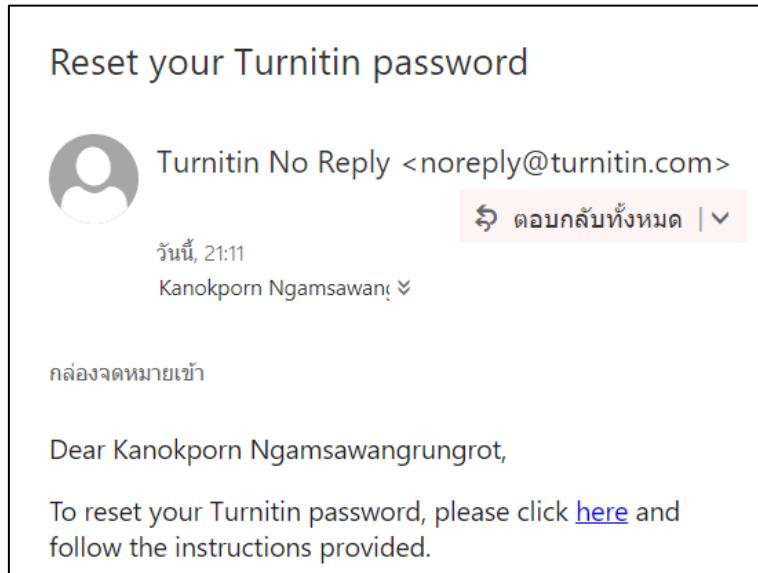

This is another view of the Turnitin "Reset User Password" page. It shows the Turnitin logo and the heading "Reset User Password". Below the heading, there is a message: "If the email you provided exists in our system you will soon receive an email containing a password reset link. Please check your inbox and spam folder." followed by "You have 24 hours to change your password using the emailed link."
